Hansa International is a fast-growing NVOCC and freight forwarder dedicated to helping global companies to import and export their products around the world.

Established in 2003, We are constantly learning, refining and expanding in various areas over the past 20 years. Today, Hansa is able to handle all the services and needs of our clients with ease.

Customer satisfaction is the only goal of Hansa. As a quality logistics service provider, we are committed to a business philosophy that providing our customers with the best possible service. Our strong network is also the basis for our clients to work with us. Our network helps our clients to successfully drive their business at all levels--globally, countries and local cities. We commit to realize the real value of our clients and our employees and rewarding both financial and professional advancement by constantly innovative solutions.

Now Hansa has a strong and professional service team that will provide you with the best service from day to night, striving to complete each and every shipment perfectly.

History

Our team

With nearly 20 years of experience in the freight forwarding, our team is able to respond to your needs in a variety of ways, so we can do everything for you.

Before working as a freight forwarder, Samuel Chen, the founder of the company was a medical doctor in one of most famous hospitals in China. He selected Pharma logistics as one of Hansa's services to utilize his medical knowledge to fulfill healthcare tasks, in another way.

Our business is a people business, and people are Hansa's most important asset. We are committed to creating real value for employees through rewarding careers, transparency throughout our company, open communication and dialogue at every level of the organization.

Our Services

We ship your satisfaction

Product description

Pharma warehousing and distribution

Our pharma warehousing services are designed to ensure your products are stored in a safe and secure environment that meets regulatory requirements. Our distribution services can ensure your products to be delivered to your customers on time.

Pharma transportation and distribution network

We provide safe and reliable transportation of pharmaceutical products. Hansa developed to set up a cold chain network in China, for the operation of pharma shipments. The network includes national distribution network, GSP-compliant 2°-8°c pharmaceutical warehouses in Shanghai, Beijing, Guangzhou, Chengdu, and Suzhou.

Pharma cold chain management

Pharma cold chain management is the process of safely and effectively storing, transporting, and handling temperature-sensitive pharma products. We offer a range of solutions and services for temperature control, quality management and risk assessment of your pharmaceutical products throughout the entire process.

Product description

Pharma transport package

We use specialized packaging materials, including temperature-controlled containers and insulated boxes, to protect your products from temperature variations and other environmental factors.

Air transport services

We provide multi-timeliness air transport solutions covering the entire country (24 H, 48H, and above), multimodal integrated cold chain transport services, and multimodal transportation integrating highways, railways, air transport, temperature-controlled vehicles, etc.

Pharma products and equipments logistics

We understand the importance of timely and secure delivery of pharma products and equipments, and our transportation service is tailored to meet these requirements. We focus on the logistics for Biopharmaceuticals, Life sciences, Clinical Medicine, Medical devices, etc. Our service includes temperature-controlled transportation that ensures pharma products and equipments are maintained at the appropriate temperature throughout the journey.
